ADDITIONAL NOTES	Please CLEARLY LABEL all supplies and uniforms.	

TECHNOLOGY GUIDELINES (Grade 6-12)

WRCA uses a Bring Your Own Device model for Grades 6-12. Students need a laptop that can support regular classroom learning, research, digital creation, and assignment management.

Minimum device requirements include:

- Ability to connect to Wi-Fi
- Weighs under 4 lbs.
- Battery life of at least 6 hours per charge
- A full keyboard
- A screen size of at least 10 inches diagonally
- A mouse for Grade 6-10 design classes

Families should consider the student's age when choosing a device. Grade 6 students usually benefit from a smaller, lighter, and less expensive laptop with as few detachable accessories as possible. Grade 11-12 students may want a device that can continue into post-secondary use. Personal preference can also matter if it helps a student take greater ownership of the device and care for it well.

Do not buy an iPad as your child's primary school device. iPads and similar tablets do not run required programs effectively for courses such as Design, and they are less useful for everyday school tasks such as word processing and ManageBac. In Grades 11-12, a tablet may be a helpful supplement to a laptop, but it should not replace one.

Please note that if you purchase a MacBook and enable parental controls, your child may be unable to connect to school Wi-Fi.

WRCA provides student licensing for several software products, so families do not need to purchase these separately when buying a device:

- **Office 365:** Students in Grades 6-12 can install Microsoft Office on up to five personal devices. This currently includes Word, Excel, PowerPoint, OneNote, Access, and Outlook.
- **Adobe Creative Cloud:** Students in Grades 6-12 receive access to the full Adobe Creative Cloud suite and may install it on up to two personal devices.
