

**Technology Use Policy**

**Approved: February 2007**  
**Revised: June 2018**  
**Revised: November 2020**

**Rationale**

White Rock Christian Academy’s purpose statement includes ‘cultivating citizens of Godly character’ which we believe includes acting appropriately, whether they are in the academic, co-curricular or service fields of our school. Furthermore, our school promotes responsibility among our students through the development of character qualities including self-control and using our time wisely with constructive activities. Therefore, encouraging students to pass the test of Philippians 4:8 is integral to our school: ‘whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable – if anything is excellent or praiseworthy – think about such things.’

The use of technology also requires us to ensure students act appropriately and responsibly in developing Godly character. Mobile devices allow students to text, interact on social networking sites, and check their e-mails. This is extremely distracting for not only the student (because they are obviously not paying attention), but can also become distracting for other students around them. This has also impacted appropriate social interaction at school. We also recognize that we have little control over content accessed by mobile devices (e.g. smart phones), and therefore, we believe it is important to control the possibility of students accessing inappropriate material at school.

Appropriate use of technology at school offers enhanced learning opportunities. However, some worldwide resources available on the Internet are not of educational value in a school setting. The Technology Use Policy serves to protect the interests of the school and its technology resource users.

<b>Policy Statements</b>	<b>Regulations</b>
1 Digital Literacy will be taught at WRCA as part of the BC Curriculum.	1.1 The Ministry of Education defines digital literacy as “the interest, attitude and ability of individuals to appropriately use digital technology and communication tools to access, manage, integrate, analyze and evaluate information, construct new knowledge, create and communicate with others”.  1.2 Part of Digital Literacy is Digital Citizenship. This is defined as students understanding human,

	<p>(research, word processing, presentations and fulfilling classroom expectations).</p> <p>3.2 Students using an appropriate technological device inappropriately will have that device confiscated.</p> <p>3.3 Confiscated technological devices will be brought to the main office and stored in a secure place.</p> <p>3.4 Confiscated technological devices will only be relinquished to the parent/guardian of the student who owns the device.</p> <p>3.5 WRCA reserves the right to collect and examine any technological device that is suspected of causing technology problems or was the source of an attack or virus infection.</p> <p>3.6 WRCA has the right to conduct searches on technological devices when there is a reasonable suspicion that the device was used for unsafe activities.</p> <p>3.7 The school will provide a list of minimum requirements for a technological device needed as part of their regular school supplies.</p> <p>3.8 Students and parents are expected to support this policy by reading, agreeing and signing the WRCA Acceptable Use of Technology form (to be developed).</p>

The school leadership team through consultation with the school staff developed this policy, and it was approved by the WRCA Board of Directors. It will be communicated to the school community and made available on the school website. The leadership team will review the policy and the WRCA Board of Directors will approve suggested revisions every year.
